

M-ROCK P-Series /MSI

ENGINEERED TO BE QUICK AND EASY TO INSTALL

The natural beauty and elegance of stone is undeniable, now you can have the look without the hassle. M-Rock's MSI, Mortarless Stone Innovations is a panelized stone veneer system that installs with screws, designed to be the most realistic stone on the market today. MSI's "Stack and Fasten" technology utilizes a patented rail system that allows the stone to lock as you install, each panel is 5"x20", with advancements in the design to allow for inside and outside corners. Engineered to be quick and easy to install, MSI is great for everyone from the do-it-yourselfers to contractors.

- Installs with screws on any substrate and in any weather
- No footings, angle iron or support system required
- No skilled mason required
- Trim systems that complete projects
- Air and Weep system between stone and wall
- Commercial and Residential / Interior and Exterior
- Fire Resistant, Weatherproof, 40 Year Guarantee

Patented Locking Rail System: MSI's "Stack and Fasten" technology utilizes a patented rail system that locks the stones together as you install. Matching corners, trim and accessories complete this stone system to give you a professionally finished look every time.

What makes M-Rock P-Series better than other products in this category?

- No mortar needed saves money in installation and concrete preparation that is required for a traditional stone product.
- A simple locking system that requires little to no effort for the installer.
- Built in sizes that make the system work out every time for the installer.
- Easily achieves a high end stack stone look.
- Creates it's own air and weep system designed to eliminate water problems inherit in traditional stone installation.
- Created from a low expansion slate aggregate with color mixed throughout making it built to last the test of time.

What makes P-Series better than our competitors?

- M-Rock's Unrivaled Customer Service
- Can be cleaned with a pressure washer held at least 5 feet away and on medium pressure
